

Dear, Subscriber

Good safety practices can be the difference between a successful and rewarding business and a disaster. We will try to help you keep up to date with new developments and trends. You can download a copy of this toolbox talk as a pdf formatted to be used as a toolbox topic at your next toolbox meeting.

## TOOLBOX TALK

Today's toolbox talk is about Hydraulic Safety

We are all surrounded by hydraulics every day. You will find hydraulic system in our cars and trucks. In plant, machinery and construction equipment. ....[Read More](#)

## Working together for Safety

JSEAsy have joined forces with [Torc Solution](#) to include:

[Safe Operating Procedures \(SOPs\)](#) and  
[Safe Work Method Statements \(SWMS\)](#)

for their range of hydraulic and pneumatic tools in v4.3 of the JSEasy Safety Software.

JSEasy and Torc Solutions agree that there is no substitute for quality or compromise with safety.

[Torc Solutions](#) are specialists in hydraulic and pneumatic torque tooling for industries who rely on critical bolting applications. In an ever-demanding commercial environment they have addressed the need for genuine high quality hydraulic and pneumatic torque tools at a very competitive price point.

## Breach of Safety Acts and Regulations

**Regulators** can (and do) carry out legal prosecutions through the courts against individuals, employers or businesses who have broken safety laws or workers compensation legislation.

**No matter where you are, or the terminology used we are all responsible for safety!**

Common Regional Terminology includes:  
Workplace Health and Safety (WHS)  
Occupational Health and Safety (OHS)  
Occupational Safety and Health (OSH)
